Introduction

The Physicians Plus Provider Directory lists the addresses and phone numbers of health care providers and hospitals in the Physicians Plus provider network. Use the directory to choose a primary care physician (PCP) whose office is located near your home or workplace and to find important information about accessing all health care services covered by your plan.

This provider listing was accurate at the time of printing. However, some changes may have occurred since the printing date. Our online provider directory at www.pplusic.com is updated weekly and has the most current information about our providers. If you have a question about the availability of a particular provider, please contact Member Service.

Choosing a Primary Care Physician (PCP)

Each Physicians Plus member must choose a primary care physician (PCP) — we cannot pay any claims for members without a current PCP. PCPs provide general medical services and coordinate your overall health care. PCPs are trained to diagnose and treat a wide range of diseases and illnesses. They work directly with specialty providers to coordinate specialized care, if needed. We encourage you to establish a strong relationship with your PCP. Each family member may choose a different primary care physician to suit their individual needs.

PCPs include family practitioners, internal medicine doctors, pediatricians, and in some cases, obstetricians/gynecologists. In some locations, nurse practitioners (NPs) and physician's assistants (PAs) are also members of the health care team. Although they may be extensively involved in both the delivery and coordination of your overall care, they **cannot** be selected as your PCP.

Types of PCPs

Family Practice: Family practitioners provide medical care for all ages. Some family practitioners also provide obstetric care.

Internal Medicine: Internal medicine doctors provide general medical care for adults.

Pediatrics: Pediatricians provide general medical care for infants, children, adolescents and young adults.

Obstetrics and Gynecology: Obstetricians and gynecologists specialize in health care for women, including care during and after pregnancy.

Some physician's practices may be full. PCPs with closed practices at the time of printing are identified in this directory. For help selecting a PCP, contact Member Service at (608) 282-8900, (800) 545-5015, or e-mail: ppicinfo@pplusic.com.

Changing Your PCP

If you want to change your PCP, you may do so online at www.pplusic.com by using GO-TOSM (our online health plan management system), or by contacting Member Service by e-mail or phone. You must also contact your payroll department with this change. **The change will be effective on the first day of the month following the date we receive the notification.** When you have an appointment with your new PCP, please ask them to transfer your medical records from your previous PCP's office or clinic.

Special Codes Legend

Health care providers do not automatically accept new patients all the time. The following symbols appear next to physicians' names throughout the directory to assist you in selecting a PCP. After selecting a physician, please call the physician's office to verify that they are accepting new patients.

PCPs with *no symbol* have an open practice and were accepting new patients at printing time.

- PCP with an open practice. This physician also provides obstetric care.
- ^ This practice may be very busy or limited, and you may experience delays in scheduling appointments. Please call the physician's office to determine their availability.
- ~ This practice may be very busy or limited, and you may experience delays in scheduling appointments. Please call the physician's office to determine their availability. This physician also provides obstetric care.
- * This practice is restricted to current patients only. You may select this doctor as your PCP only if you are already their patient.
- # This practice is restricted to current patients only. You may select this doctor as your PCP only if you are already their patient. This physician also provides obstetric care.
- A physician extender cannot be chosen as a PCP. Please select a physician at this location.
- + This dental care provider also provides treatment for Temporomandibular Disorder (TMD).

Specialty Care

Physicians Plus does not require a written referral for payment of claims in conjunction with specialty care received from a participating provider.

Your PCP refers you to another participating provider when they want you to receive specialized care that is outside the scope of their practice.

Some specialty services, including all non-emergency inpatient services and specific kinds of outpatient services (including elective or planned surgery, treatment and tests), may require prior authorization from Physicians Plus in order to assure that the service is a covered benefit. Many services that require prior authorization are listed in your plan brochure. To obtain prior authorization, please have your physician call Health Services at (608) 282-8900 or (800) 545-5015.

Your Physicians Plus Identification (ID) Card

It is important that you take your Physicians Plus ID card with you each time you visit a physician's office or participating hospital or pharmacy (if you have drug coverage). Presenting your ID card helps speed up the check-in process at the office, clinic or hospital. Your ID card includes your PCP's name and your member number. Under some Physicians Plus plans, specific office, immediate care and emergency room visits require copayments. It is the member's responsibility to pay the appropriate copayment at the time of service. Your ID card helps identify most, but not all, applicable copayments.

You receive a new ID card any time you change your PCP. If you have questions or would like additional cards for family members, please contact Member Service.

Questions?

Please contact Member Service, Monday–Friday, 8:00 a.m.–5:00 p.m. with any questions. To help us serve you more efficiently, please have your ID card or member number ready when you contact us at:

Phone: (608) 282-8900 or (800) 545-5015

E-mail: ppicinfo@pplusic.com

Web: www.pplusic.com

Mail: Physicians Plus Insurance Corporation
P.O. Box 2078
Madison, WI 53701-2078

Services for the hearing impaired are available through our TDD line at (608) 260-7998. Please leave a message and a Member Service Representative will return your call.

After-Hours, Immediate and Emergency Care Services

Please attempt to contact your PCP before seeking care at an immediate/urgent care center or after-hours clinic. In addition, feel free to call our NursePlusSM information line at 866-PPLUSRN (866-775-8776) at any time (24 hours a day, seven days a week) to speak with a registered nurse about any health care issue. While clinic hours are generally Monday–Friday, 8:00 a.m.–5:00 p.m., many clinics also have weeknight and weekend hours. Contact individual clinics for their operating hours.

Immediate/Urgent Care Situations

Some medical problems are not life threatening but require immediate attention. If an immediate/urgent care situation arises, please contact your PCP's office first. Your PCP will direct you to the appropriate facility for care. If you are unable to contact your PCP, you may go to an urgent care facility without an appointment.

Pediatric After-Hours Clinic

If your child's PCP is a UW Health pediatrician and your child requires medical attention after regular clinic hours, please call your pediatrician's office. The pediatrician on call or a pediatric nurse will discuss your situation and may direct you to the Pediatric After-Hours Clinic. The Pediatric After-Hours Clinic is available by appointment only. It is not a walk-in clinic.

Emergency Medical Care

An emergency medical condition reveal themselves through acute symptoms of sufficient severity, including severe pain, leading a person with average knowledge of health and medicine to reasonably conclude that lack of immediate medical attention will likely result in any of the following:

- (a) Serious jeopardy to the person's health or, with respect to a pregnant woman, serious jeopardy to the health of the woman or her unborn child;
- (b) Serious impairment to the person's bodily functions; or
- (c) Serious dysfunction of one or more of the person's organs or parts.

If you have a medical emergency, visit the nearest hospital emergency room for treatment. Visit Physicians Plus's participating hospitals, Meriter or University of Wisconsin Hospital, if you are in the Madison area when the emergency occurs. If you cannot get to the hospital immediately, call 9-1-1. Notify your PCP so they can coordinate your care. If you are admitted to a hospital, you and/or the hospital must notify Physicians Plus within 48 hours of the admission or as soon as is medically possible. For more information on emergency care services and when to use the emergency room, please refer to your Member Handbook.

Pharmacy

Physicians Plus has national contracts with Walgreens, K-Mart, Wal-Mart and Target pharmacies, as well as hundreds of independent pharmacies. These contracts allow our members to fill prescriptions at more than 6,000 locations throughout the United States and more than 600 pharmacies in Wisconsin. You can fill formulary drug prescriptions written by participating providers at these locations when traveling outside our service area. Point-of-Service plans may allow non-participating prescribers to fill your prescriptions. If you or your pharmacist has prescription questions, please call Pharmacy Services Monday through Friday, 8:00 a.m. to 5:00 p.m. at (608) 282-8900 or (800) 545-5015.

Prescription Delivery & Online Ordering

As a Physicians Plus member, you also have the option of prescription ordering (refills only) with free delivery through a special arrangement with UW Health pharmacies. These pharmacies offer flexible payment options for same day/next day deliveries to your residence if you live in the Madison area, or mail-order deliveries to all members, wherever they are in the U.S., within three to five business days. Online ordering is available through www.pplusic.com. All pharmacies listed provide residential delivery. You must select the "I S. Park St." pharmacy location for all mail orders. Copayments for prescriptions picked up at pharmacies can be paid for by cash, check or charge. Cash on delivery (C.O.D) is available for delivery orders. If you have any questions about these delivery and payment options, please call a UW Health-Physicians pharmacy representative at (608) 287-2400.

How to Access Behavioral Health & Alcohol and Other Drug Abuse (AODA) Services

When you need a behavioral health provider, please contact:

Physicians Plus Behavioral Health Consultation System
(608) 282-8960 or (800) 683-2300, Monday–Friday, 8 a.m.–4:30 p.m.

A behavioral health professional assesses your situation and refers you to the appropriate provider. All on-panel behavioral health assessments and treatments require prior authorization.

For emergencies, please contact your therapist. If you do not have a therapist, or cannot contact your therapist, call the Meriter emergency room at (608) 267-6206 or the emergency room of any hospital in the Physicians Plus network. Emergency room personnel will refer you to the behavioral health/AODA professional on call. During working hours, you should contact the Physicians Plus Behavioral Health Consultation System.

Credentialing

Physicians Plus credentials its physicians according to standards set by the National Committee for Quality Assurance (NCQA). For initial credentialing and re-credentialing, we verify information such as Wisconsin license to practice, Drug Enforcement Agency (DEA) certificate, education/residency completion and board certification. We also search the National Practitioner Databank (NPDB) for protected information such as malpractice issues. During re-credentialing, which takes place every two years, we consider any member complaints reported against a practitioner. In addition, we perform facility reviews for all PCP, OB/GYN and high-volume behavioral health facilities. The Medical Director and the interdisciplinary Credentialing Committee review all initial and re-credentialing files.

If you have specific questions on a provider's educational background, please contact the clinic where that individual practices.

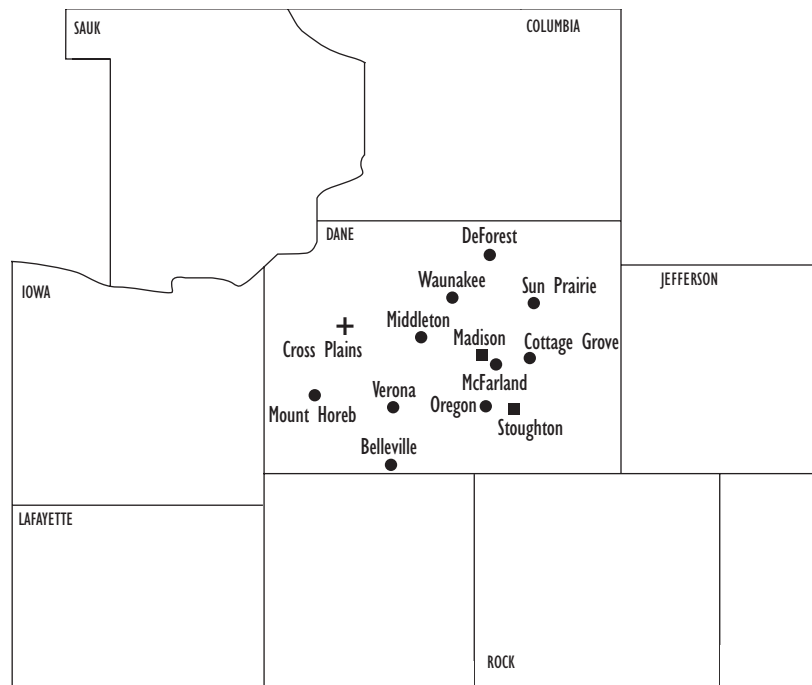

Note: The online provider directory is updated weekly at www.pplusic.com and has the most current information about our providers.

This provider listing was accurate at the time of printing. However, some changes beyond our control may have occurred since this material was printed. If you have a question about the availability of a particular provider, please contact Member Service.

Physicians Plus does not discriminate on the basis of disability in the provision of programs, services or activities. If you need this printed material interpreted, in an alternative format or need assistance using any of our services, please contact Member Service at (608) 282-8900, (800) 545-5015 or e-mail: ppicinfo@pplusic.com. Our TDD number is (608) 260-7998.
